

## Unisystem Plus, innovation in one click.

Unisystem Plus is a system for the floating installation of wooden and laminate floors with thickness from 6,5 to 22,6 mm. Composed of junction profiles for same level floors, transition profiles for different level floors, perimeter profiles and stair nosing profiles, Unisystem Plus is easy to install and simple to remove. Indeed, the system consists of a top profile, an aluminium base and a fixing clip: after fastening the clip to the top profile, just push the top profile into the aluminium base to fix it.

## Unisystem Plus range.

## Easy to install, simple to remove.

fix the aluminium base to the screed with screws or adhesive

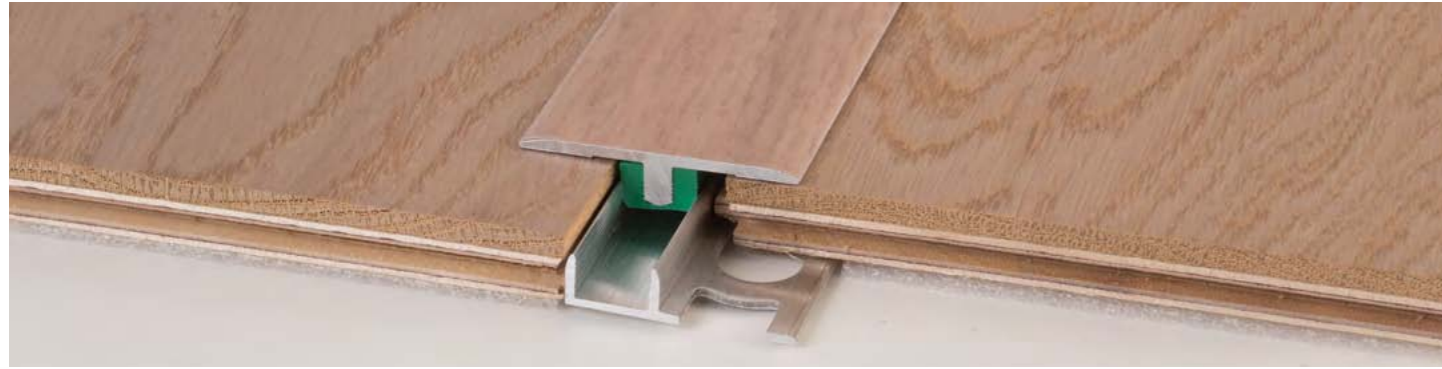

bring the parts of the floor close

fasten the clip to the top profile

lay the top profile in the base

push the top profile in the base
